## LOCAL ITEMS

Frank Deman, who has been  
looking after his farming interests  
here, returned on Friday to his  
home at Granum, Alberta.

Mr. and Mrs. Thomas Petersen  
left on Friday for Shellbrook,  
Sask., to attend the funeral of  
their mother.

Germicidal Soap prevents in-  
fection, and protects your health.  
25 cents a cake at Jacques' Drug  
Store.

O. B. Elliott, the local station  
agent, has been notified from the  
C. N. R. headquarters, Calgary  
that the Chinook station will not  
be open for Sunday morning trains

Chas. Neff returned on Tues-  
day morning from a month's trip  
to Bermuda, where he has been  
attending a convention of the  
Manufacturers Life Insurance  
Company.

R. C. Britton, of Killam district,  
arrived in Chinook on Wednesday  
and is visiting his brother, Cyril  
south of town.

Mr. and Mrs. J. L. Massey re-  
turned on Friday from Calgary,  
where they have been attending  
the wedding of their daughter.

The Mid-night Serenaders will  
make their second appearance in  
the Chinook School on Friday,  
April 1st at a Novelty ball. Don't  
fail to attend this function. Good  
time for all.

Miss Pauline Worman arrived  
from Calgary yesterday morning  
and is visiting her parents in the  
Langford district.

Mrs. L. S. Dawson entertained  
a number of ladies at an afternoon  
tea on Wednesday in honor of  
Mrs. A. McAlister who is shortly  
leaving town to reside in Calgary.

David Stewart, who has been  
spending the winter at Kew,  
returned to his farm in the Laughlin  
district on Wednesday.

Mrs. A. McLeenan, A. Spreem-  
an and N. D. Stewart, of Col-  
lholme district, are in Calgary this  
week attending the Annual As-  
sembly of the Church of the Naz-  
arene.

Raymond Deman, who recently  
underwent an operation for ap-  
pendicitis in Calgary, returned  
home last week.

Wesley Seeger, who has been  
spending the winter in Calgary,  
returned to Kimmund on Tues-  
day.

J. M. Davis shipped two car-  
loads of cattle to Winnipeg this  
week.

W. Poekkens left on Saturday  
for Camrose, where he will visit  
his parents.

F. L. Aylesworth, School In-  
spector, visited the Chinook  
School this week.

R. A. Morrison returned on  
Monday from Calgary where he  
has been spending the past three  
weeks.

## Chinook Couple Married In Calgary

### BUTTS—MASSEY

A very pretty wedding was  
solemnized on Tuesday, March 15,  
at the St. Mary's Church, Calgary,  
when Miss Marie Antoinette  
Yvette Massey, daughter of Mr.  
and Mrs. Joseph L. Massey, of  
Chinook, was united in marriage  
to Mr. Winslow Lamont Butts.  
The Rev. Father Smith officiated.  
Mr. Butts is in business in Cal-  
gary, where the happy couple will  
make their home.

The Advance join with their  
many friends in wishing Mr. and  
Mrs. Butts every happiness in  
their married life.

## Chinook Agricultural Society Directors Meet

### Add New Features to Prize List And Appoint Committees

The Directors of the Chinook  
and District Agricultural Society  
held a meeting at the home of the  
secretary, W. A. Todd, on Satur-  
day afternoon. The prize list for  
the 1927 fair was thoroughly over-  
hauled and several new features  
added to the list. It was decided  
to allot \$75.00 for horse racing,  
\$50.00 for baseball and \$25.00 for  
children's sports.

The following committees were  
appointed:

Horse races: J. Rennie and  
J. J. Doonan.  
Baseball: I. W. Deman and  
R. D. Vanhook.

Children's sports: S. H. Smith  
and O. B. Elliott.  
Grounds: F. F. Foster, C. E.  
Neff, D. E. Currie, Harry Smith,  
W. A. Todd.

Horses: D. Stewart, James  
Young, Geo. A. McDonald.

Cattle: E. B. Allen, Neil Mc-  
Lean, F. Sayers.

Hall: All the lady directors,  
and F. E. Foster, Robert Smith,  
A. S. Warren.

Ring Master: E. O. Hocart.  
Reception Committee: J. L.  
Carter, Mr. and Mrs. R. Stewart,  
Mrs. W. A. Todd, Niel McLean.

Finance: Niel McLean, E. G.  
Parsons, F. E. Jacques, Mr. and  
Mrs. W. A. Todd.

Dance Committee: C. E. Neff,  
E. E. Jacques, D. McKenzie, R.  
Morrison, Mrs. Neff, Mrs. Rennie.

## Former Chinook Business Man Dies In Manitoba

W. S. Lee received the sad  
news this week of the death of  
Roger R. Dunn who passed away  
on Tuesday night. The late Mr.  
Dunn was well known in the  
Chinook district having been in  
partnership with Mr. Lee in the  
Banner Hardware store for a  
number of years. He left China k  
in 1913 for Grandview, Manitoba,  
where he was in the hardware  
business until the time of his  
death.

Mr. and Mrs. F. W. Sherman  
have rented the Gilbertson resi-  
dence on Third Avenue and moved  
into their new home last week.  
Mrs. Sherman arrived from Cal-  
gary last Thursday.

## British vs. Foreign Born

The subject of immigration to Canada is, it is gratifying to note, engaging the attention of the people of the Dominion to an ever increasing extent. A very real interest is being aroused, and this interest is not confined to Canada, but is much in evidence in the British Isles. This growing interest is occasioned, not only because of a realization of the fact that one of Canada's national requirements is a larger population, but because it is becoming increasingly clear that in the present and succeeding years, Canada will be the haven of the surplus population of older and more congested lands.

Much of the discussion around this subject is as to the effect of this large influx of population upon the future character, ideals and national viewpoint of the Canadian people. There are expressed in some quarters that non-British speaking peoples will swamp the native Canadians and the British-born, with a resultant gradual weakening of the ties binding Canada to the Empire, and the possible introduction of customs and ideals not wholly agreeable to those of British descent. It has been suggested that Canada should restrict immigration to men and women of British descent.

While it will be generally admitted that greater encouragement should be given to British immigration than to immigration of other races, it is a pity and a grave mistake that people strongly urging this view should indulge in misstatements in their references to the present composition of Canada's population, and more particularly the racial classification of the people of the Western prairie provinces.

Speaking before the Canadian Club of Vancouver recently, Mayor Widd of Winnipeg is credited with making the statement that fifty-five per cent. of the people of the prairie provinces were not British. It would be interesting to have Mr. Widd submit some proof in support of such a statement, because the official census figures do not support him.

At a meeting of the Women's British Landmark League held in Saskatoon a few weeks ago, the even more astounding statement was made that "after a careful study of statistics" it was established that Saskatchewan's population was 75 per cent. foreign born and only 25 per cent. British, and a Saskatoon paper headed by report of this League meeting with a two-column display declaring "Prostrate! The population is 75 per cent. of Foreign Extraction!"

In view of the circulation of such misinformation from what might be accepted as authoritative sources, it is well that the actual facts should be given wide publicity.

According to the census of 1921 the population of the three prairie provinces was 1,266,082, and was officially classified as follows:

Born in Canada	Born in other British Possessions	Born in U.S.A.	Born elsewhere
Manitoba	287,746	113,114	87,841
Saskatchewan	477,825	169,225	111,705
Alberta	213,090	99,292	74,933
Total	1,160,669	381,631	274,479

In other words, out of a total population of 1,548,082, no less than 1,172,750 were British-born, either in Canada or in Great Britain and other British countries. That is, a little better than 75 per cent. were British-born, an altogether less figure than 75 per cent. mentioned by Mayor Widd's figures of 55 per cent. non-British and only 45 per cent. British.

The figures used at Saskatoon relative to Saskatchewan should just be reversed, 75 per cent. born under the British flag and only 25 per cent. under all other flags before the correct fact situation.

It is a well known fact that thousands of our people classified as born in the United States are the children of Canadians who emigrated to the various middle states in the eighties, while other thousands are of British descent.

Canada is British and British to stay. The Anglo-Saxon has demonstrated his ability to assimilate other people as in other races has done, and here in the West we know that most of our non-British people have a high regard for democratic British institutions, a real appreciation of British life, and a deep respect for British law. They are glad to have their children educated in regard to these things, and in a generation or two it will be almost impossible to distinguish them from those of British descent, except for the surnames they bear.

British people themselves are the result of an intermingling of races, and in the melting pot of Canada there is every reason to believe that the Canadian people of the future will be one of the most, studied, most modern and intelligent races in the world. Certain it is that in education, in energy and progressiveness, in achievements already in their credit, and in the development of their governmental institutions, the people of Canada's prairie provinces do not take second place to any other section of the Dominion or country in the world.

We need exertion no more for the future, and it is not only a mistake but most unjust to Canada for pre-simply informed people and organizations to broadcast untrue and therefore misleading statements regarding our people.

**Too Much to Believe**—Henderson on "Your boys seem to be 'It' just about," exclaimed May, looking quite a home for him-off in Cuba. "You have killed them and have house as an address. The most he is a Snowdon Silverman, Ontario, to have had."

Blake "Yes, he is, but after me, I'm not a home, myself. Why, I can enjoy the other and see back into the home without seeing them on me."

The Kink, one of the most famous of New Zealand, is a strange bird without white or full, but a real, rather far too, is there, is used by the native women for adornment, than the soil.

## CHILDREN CRY FOR

**Fletcher's  
CASTORIA**

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrup, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of **A. H. Fletcher**. Proven directions on each package. Physicians everywhere recommend it.

## German Doctor Puzzled

Thinks Heavy Jewels May Account

For Broken Wrists on Mummies  
The hectic living of this modern jazz age is responsible for bodily ailments unknown to the old Egyptians, declares Dr. Arnold Sachs of the University of Heidelberg who has performed autopsies on thousands of mummies, some of which date back 4,000 years.

Tooths, tooth pain, mouth ulcers appear to have been numerous in ancient times because nine out of ten Egyptians had perfect teeth at death," Dr. Sachs asserts.

Cancer, gout, tuberculosis, and diseases of the blood were virtually unknown in early times but Dr. Sachs admitted being baffled in his efforts to determine whether the wearing of heavy gold and iron bracelets accounts for the large number of fractured wrists he had discovered in his examination of mummies.

## Greets Duke of York

World's Largest Monarch Makes Trying Journey to New Zealand

The Duke of York has met the world's greatest monarch in the person of King Tani Solomoni of the Chagga Islands. The King weighs 252 pounds and made the 325 mile voyage from his realm, east of New Zealand, solely to pay his respects to British Royalty. Solomoni is a king without subjects as his people, the Moris, have been wiped out by the Maoris.

It was a trying journey for Solomoni but he left amply repaid by the Duke's warm welcome and his obvious admiration of the king's girth.

## Her Kidneys Were In Pretty Bad Shape

Manitoba Lady Tells of Benefits Received From Dodd's Kidney Pills

Mrs. J. D. Beattie, of a Few Words Gives Reason Why Dodd's Kidney Pills Are So Popular. "My kidneys were very bad and I felt as though I did not want to do anything but sit around. I thought I would try Dodd's Kidney Pills, which I did, and they helped me very much. After taking two boxes I began to feel well again, and now my kidneys are fine. What Mrs. Beattie states is all that has ever been claimed for Dodd's Kidney Pills—that they are good for kidney troubles. The medicine leads the blood through the kidneys. If they are kept strong and well, all the impurities are strained out of the blood. If they are weak and out of order the impurities stay in the blood and disease is the sure result."

Dodd's Kidney Pills keep the kidneys in good condition to do their work of excreting and purifying the blood.

Weak, nervous, run-down women should give Dodd's Kidney Pills a trial at once.

## Will Have Everything Modern

Houses on English Estate Fitted With All Electrical Appliances

Houses that are being built on a South London estate are each to contain a wireless set, a videotape apparatus for reading the film, an electric refrigerator, an electric vacuum cleaner, a central heating, radio-gram telephones, and an electric vacuum cleaner.

Nearly 5,000 of these houses are to be built on the estate, a large park, and the builder says that he is trying to strike a new note in what may be called middle-class homes by providing benefits and advantages usually reserved for the rich.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Gray's Worm Expeller to drive out the parasites.

## Tip Will Be Brief

Prince of Wales' Canadian Visit to Cover Only Six Weeks

Instead of spending six weeks at his ranch in Alberta, the Prince of Wales is not likely to be away from England for more than six weeks at together on his Canadian visit this summer. Although the detailed arrangements for his visit have not yet been completed the Canadian Press reports that the summer of six weeks will very likely represent the whole period of the Prince's absence from England. The Prince leaves for Canada early in August.

A century ago a physician told Tip, the Duke's parent, that he could not live long, as he had only one lung. He died freely at the age of 102.

Every man has a threefold nature, that which he has, that which he exhibits and that which he thinks he has.

Mindard's Liniment for rheumatism.

W. N. U. 1673

## Strange Performance

Staged in Moscow

Remarkable Parade Was Grim Reminder of Czarist Days

Moscow witnessed one of the strangest theatrical performances in history recently. Dressed in striped prison garb and shackled with chains and handcuffs and with shaved heads, 300 actors paraded the streets of the capital guarded by Cossack prison wardens carrying knouts and swords. The purpose of this grim procession was to show the present proletarian public how political offenders were punished in Czarist days and symbolized the tenth anniversary of liberation from imperial jails of professional revolutionists.

Each "convict" wore on his back a large case of diamonds which in pre-revolutionary days was accepted as a symbol of degradation and oppression. The entire company proceeded to the Meyerhold theatre where they gave a drama based on prison life under the emperors.

## Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the skin to the heart of the pain, draws the blood from the congested area, thereby relieving the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 25c, at all dealers.

## New Place Open For Canada

Can Have Seat on Geneva Council Says Herbert Holt

The universal esteem in which Canada is held throughout the world is liable to bring the Dominion face to face with the question whether or not she will accept a place on the Council of the League of Nations. Sir Herbert Ames, financial director of the Bank of Montreal, and a member of the Ottawa Canadian Club, has predicted that in a short time it will be demonstrated that if Canada wants a seat on the council she can have it with the goodwill of all the members of the League.

This goodwill, he added, was deserved because Canada had always played the game and taken her full share of responsibility in connection with league matters.

There existed at Geneva, he added, an atmosphere for peace and the men who were making international regulations were the men who came to Geneva ready to make common sense.

Sir Herbert summed up the chance that Canada had by declaring that fear had been replaced by security, force by compromise, despotism by hope and cooperation had replaced competition.

Hard and soft corns both yield to Bland's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

## A Good Word For Canada

Is Land of Opportunity For Women as Well as Men, Says Lady Byng

"We all realize that men are the most helpless creatures in the world," said Lady Byng, until recently Mistress of Rideau Hall, Ottawa, in an address to a London club on the woman's side of a settler's life in Canada.

"They are never old enough to take care of themselves," she said, "and if they are like this in England they are worse in Canada. Therefore, if a man goes to settle there and takes with him a woman who is not going to pull with him, he will fail."

"Canada is the land of opportunity for women as much as for men. It is the woman who is prepared to put her back into it and to make an atom what she does, who will make good and become a successful and prosperous settler."

Lady Byng described schemes of migration as very good so far as they went, but "red tape" was terrible and had stopped a great many people from going to Canada.

She strongly urged the hospitality and friendliness of Canadians to people from the home country.

The average man spends a lot of money for experience and then gives other people the benefit of it free of charge.

Stained collars may be cleaned by washing them with cloths wrung out of water in which a small piece of washing soda has been dissolved.

Speaking of fruit, the first apple came a lot of trouble for the first pair.

Mindard's—the dependable liniment.

## "Worth its weight in gold" Says Ottawa Matron

Mrs. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mrs. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured in that time could not be told," she said, "I was so weak I could hardly walk. My appetite was poor and my stomach gave me no end of trouble. Gas and pains would bring on fainting spells. My nerves were so completely shattered that I jumped in fright every time the doorknob rang. My hand trembled so that it could not hold the pen to write my name. Night after night I went without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me."

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up and I regained full strength and sleep and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and bark. Your druggist has it. Over 62 million bottles sold.

## Rural Mail Is Heavier

More Use Being Made of Postal Reduction Than Was Anticipated

When penny postage was inaugurated through the budget of last year it was estimated by the minister that the loss in revenue from the decrease in the former three-cent rate would be approximately five million dollars.

It is stated that, while there has been little increase in the volume of business letters, the return in penny postage has quite appreciably stimulated letter mail in the rural districts, and that as a result the decrease in revenue will be, not five millions, as estimated, but about two and a half millions.

The department will show a considerable deficit for the current year, but not nearly so great a deficit as expected.

## MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. The baby should not resist or irritate the mother should not fuss or fret, so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will soothe the stomach and regulate the bowels. The remedy is found in Baby's Own Tablets. They are easy to take and guaranteed to be entirely free from opiates and narcotics. Consulting them, Mr. Joe Wolskelman, St. Sophie, Que., writes: "I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

She: and will not ever stop loving me?

He: Well, I have to get to the office by ten tomorrow morning. Life.

As in nature, so in government nothing is permanent that is violent.

A safeholder doesn't blow about it.

The greater her a man is the smaller the hole he leaves behind him.

## Program of Construction Work In Saskatchewan Proposed By The Canadian National Railway

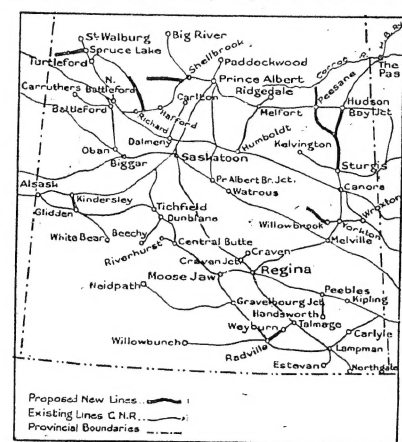

The programme of construction work on the Canadian National Railway in Saskatchewan, to be completed by August, 1929, and now having the consideration of Parliament, comprises the following lines:

Weyburn to Kaskela, 22.7 miles: Two objects, the railway management states, would be attained by the construction of this line; first, relief would be given to the farmers along its route in respect to their wagon haul to market; and second, the communities Radville, Bengough, and Willowbank, would be brought into more direct rail communication with the distributing centre of Weyburn, their rail distance to Weyburn being reduced by 123 miles. The route to Moose Jaw would be 11 miles shorter and to Regina, 25 miles shorter. The line would run through a well settled grain-growing district and one in which mixed farming is increasing. The road haul of the farmers to market at present reaches 15 miles in the centre of the area, and the farmers are looking forward to the development of delaying if their road haul is reduced.

Willowbank, North-Western, 25 miles—This is a development and

opening up of more land, eventually would be extended to tie in with the Turtleford-Halford line. Turtleford, S.E. 1/4, 67, to between Halford and Radville, 55.6 miles: The reason for proposing this line, the Railway management states, is the opening up of new territory and the reduction in operating cost on that part of the line already built and running southeast from Turtleford. The proposed extension from the present end of steel to link up with the Prince Albert-North Battleford line of the Canadian National would run through a section of good agricultural land, partly developed. As the line now stands, operation from the end of the line for business to and from eastern points has to be handled 72 miles extra, compared to the distance if the line were finished to a point west of Halford. From the same point business to and from North Battleford is penalized 12 miles.

Kinderley-Glidden, 18 miles: This is a cut-off to offer economic and operating advantages, the cut-off to run from the Goose Lake line to the parallel line to the south, extending from Alaska to Dunbar. Re-

colonization branch in the mid-western part of the province. The purpose of the line is to give better railway communication to the district north-west of Willowbank, lying between the Yorkton branch of the C.N.R. and the main line of the Grand Trunk Pacific. Eventually it is planned to extend this line through the northern area between the existing railways. With the completion of the Foster Hills forest reserve, the area is well wooded and good crops are generally obtained. It is felt that the shortening of the road haul to the farmers will offer encouragement for further settlement and development.

Sturges to near Pease, 100 miles: This line in the north-east part of the province would open up a large area of good agricultural land and give railway transportation to the Soldiers' Settlements south of Pease. It would provide a shorter and better through route for traffic from the Melton and Prince Albert districts to Winnipeg and the head of the lakes. There is much speculation for crop raising and stock raising in the area. The proposed new mileage would also form part of the link between Hudson Bay Junction and the line of the Canadian National in Southern Saskatchewan.

Pease, Northernly, 19 miles: The purpose of this line is to open up and give rail communication to an important section of the Carleton River country. The territory on both sides of the Carleton River, as far east as Range 5, has a very good character of soil and is now being cleared off. This is one of the best grain growing districts in the West, having ample rainfall each year. There is considerable settlement and this will be greatly encouraged by better railway facilities.

Shellbrook for near Parkdale, Western, 27 miles: For a considerable time the people living in the district to be traversed by the proposed line have been in need of railway facilities. There already exists a good road, but there being a high proportion of excellent agricultural land for grain growing and mixed farming, this branch which, in the opinion of the Railway, would be justified by the cutting down of the wagon haul of the settlers and the

opening up of more land, eventually would be extended to tie in with the Turtleford-Halford line. The proposed extension from the present end of steel to link up with the Prince Albert-North Battleford line of the Canadian National would run through a section of good agricultural land, partly developed. As the line now stands, operation from the end of the line for business to and from eastern points has to be handled 72 miles extra, compared to the distance if the line were finished to a point west of Halford. From the same point business to and from North Battleford is penalized 12 miles.

For traffic to and from points on the Canadian National south of Canada, this link Hudson Bay Junction to Sturges built, the route distance to be Hudson Bay would be shorter by 120 miles by this cut-off. It is estimated that 160 trains (of 50 cars each) would be justified by the annual cost.

Jin, a male, served on the township of the Morris canal in New Jersey for thirty-six years.

## Leaves To Supervise Operations At Bay

Government Engineer Will Get Party Settled Into Work of Deciding on Best Port

Russell Yull, Ottawa, Canadian government engineer, has gone to Hudson Bay, where a party will spend the summer investigating the merits of Churchill as a port, but will not himself remain there that length of time. The party had already gone ahead, and he was making the trip to see it get settled into its work. Twelve or fourteen men have gone north. They and their equipment was transported from the end of steel to Churchill by aeroplane, and they will remain at the bay until fall.

Mr. Yull declines to make any comment on his three years at Nelson, to draw any comparisons between Nelson and Churchill, or to remark on the advantage of either port, or on the feasibility of the Hudson Bay route at all, or the things that would have to be taken into consideration at Churchill. He said materials were perhaps the most important. They had never been investigated. The mileage of the railroad to that point and the cost of construction were other matters to be considered.

Of Nelson Mr. Yull would say one thing—the work done there was in good shape. When it was under way there was no thought that it would be left for ten years and no preparation had been made to meet such conditions. It had not been intended for permanence—it was to have been supplemented as time went on—but it stood today in splendid condition.

## Something New For Berlin

First Ice Cream Soda Fountain Makes Big Hit

The American soda fountain at last has obtained a foothold in Berlin. Refreshment of almost every other sort in the world has been long obtainable here, but not until recently has it been possible to buy an ice-cream soda. There is now a full-fledged fountain, with complex signs on the windows reading "Soda Fountain—Ice Cream." Curiously, the neighborhood selected is probably one of the least frequented by Americans of any of the central districts. It is directly opposite the railway terminal which handles passengers from Southern Germany. The arrivals from the home of good Bavarian beer take very kindly to the "new" American beverage, even in the present cold weather.

## Flays Study of Evolution

Should Not Be Taught in Canada's Schools Says Winnipeg Lawyer

Declaring that evolution is a question of outstanding importance for the consideration of the federal and provincial governments of Canada, R. A. Bonnar, K.C., eminent criminal lawyer of Winnipeg, favors abolition of the subject from the public school curriculum. Belief in evolution, Mr. Bonnar said, tended to atheism. "If all the people of Canada were atheists we would be a nation of criminals," he added. "Why people insist they were descended from monkeys I cannot understand. They are quite welcome to insult their ancestors in this manner, but I am sure none were monkeys."

## Arms Parley Invitations Issued

Formal invitations for the three-power naval conference to be held at Geneva at as early a date after June 1 as is convenient have been handed by the United States Government to the British and Japanese ambassadors. The text of the formal invitation understood not to contain any fixed formulae to guide the Geneva negotiations.

An efficient Japanese scholar was to be familiar with 4,000 Japanese characters used in the language.

## Girl's Jest Starts Apple Industry

And This Year the American Northwest Will Celebrate Centennial of Founding of Business

Because just one hundred years ago a pretty English girl would have her little joke, the centenary of the American Northwest's apple industry is to be celebrated at Cushman, Wash., this spring. From that joke the Northwest has built an apple business amounting to millions of boxes each year.

In the spring of 1829 Captain Ennias Simpson, a Hudson's Bay Company skipper, was given a banana in London. Beside him sat a pretty girl, Mary Leigh. The captain told her of the American wilderness. Mary Leigh bit into a red apple and, gathering the pips, presented them to the captain, with the laughing suggestion that he need not lack fruit "in the wilderness."

Simpson slipped the pips into his breast-pocket. Eight months later he arrived at Fort Vancouver. The pips were carefully planted in a box. All winter the box was placed in charge of trusted Indians. Next spring the plants were transplanted to a sheltered nook outside.

In three or four years one tiny green apple appeared. It was the first seen in Western America. Indian chiefs and white traders and trappers came in and, with ceremonies, the small apple was divided among them.

From that romantic start grew the Northwest apple industry.

## Is Canadian Better Farmer?

Washington Paper Refers to Their Successful Competition With American Agriculturist

"Is the Canadian a better farmer than his fellow agriculturists on the United States side of the boundary?" The Washington Post asks this question in regard to the passage through Congress of the Farm Relief Bill which the President has vetoed. The newspaper finds it "difficult to understand how the Canadian wheat farmer can compete with his American cousin in the wheat market on this side of the line against the duty of 20 cents per bushel." Yet the Canadian farmer does compete in this market, the Post says, and quotes official records of imports of wheat for milling, re-export and domestic use.

"It can not be claimed," the Post goes on, "that the Canadian farmer has any advantages over the agriculturist in the United States. The climate of the Canadian wheat region differs very little, if at all, from the climate of the American wheat belt, especially the spring wheat region. Yet the Canadian grower has not asked his government to finance his operations."

## Scientist Has New Theory

Important Pronouncement on Origin of Man is Looked For

Sir Arthur Keith, world famous anthropologist, is preparing a lecture for delivery before the Royal Anthropological Institute, which is hailed as almost certain to constitute the most important pronouncement on the origin and development of man since Darwin pronounced his theory of descent.

Scientists are expecting him to suggest modification of the Darwinian theory, which would emphasize man's animal and human cousins, contradicting the old theory of man's straight descent along one branch from animals.

## Will Serve India First

India will be the first destination of the empire airship service and the two new supermodern ships of the air are to be put in commission for the far eastern route. The Canadian flight is not expected to materialize now for some considerable time, eighteen months at least.

## Canadian Scientists Investigate Theory That This Continent Is Drifting Towards West

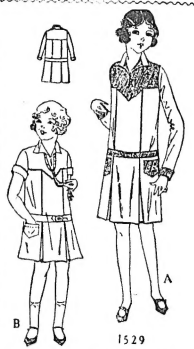

Used As An Alibi

Soviet Russia Places Responsibility for Propaganda on Third Internationale

Soviet Russia has a good alibi in the Third Internationale. The Third Internationale spreads all the literature and does all the proselyting. When somebody complains Soviet Russia replies: "Why, that's just a political party, like the Democrats in America or the Conservatives in England."

It sounds all right until one digs into the facts. There are two parties in America and three or four in England, but only one in Russia.

So far as Soviet Russia is concerned, it knows but one political system and tolerates but one faction, both of which are represented by the Third Internationale. Until it frees itself from that alliance it will have to assume responsibility for what the Third Internationale conveys at the expense of stirring up trouble in other countries.

A striking effect is achieved by the use of two materials in fashioning this smart and practical dress as in View A. The skirt has inverted plait at front and back and is joined to a yoke. There is a convertible collar, long light-fitting sleeves finished with cuffs, patch pockets and a trim belt. View B is the same dress made of one material, having the cuffs on the short sleeves and edge of the yoke simply bound. No. 1529 is in sizes 8, 10, 12 and 14 years. Size 10 years requires 2 1/2 yards 39-inch material, or 2 1/4 yards 45-inch. View A requires 3 1/2 yards 39-inch contrasting, 1 1/2 yards less 39-inch material for short sleeves. Price 20 cents the pattern.

## How To Order Patterns

Address—Winnipeg Newspaper Union, 115 McDermott Ave., Winnipeg.

Town .....

The first stage of an investigation into a theory that the Americas have been drifting westward has been completed. Canada and 29 other countries participated in the scientific effort to prove the theory first held by Wegener, an Australian geophysicist.

Briefly, the theory is that in the progress of the ages, the Americas have been gradually drifting westward. It is claimed that existence of a coast range of mountains extending throughout the whole length of these continents is simply the effect of buckling or crushing at the forward edges due to this drift. The present rate of the drift is estimated at one metre a year.

Through an international arrangement 50 stations distributed in 30 countries were united in a longitude net by astronomical observations coupled with radio time signals. The relative longitude of these stations has been determined, it will be possible by a repetition of the observations at some future date definitely to settle the question of continental drift.

Canada took part in the investigation by occupying two stations, one at Ottawa and the other at Vancouver. At each station two telescopes were constantly in use, as well as auxiliary equipment of clocks, chronometers and wireless instruments. At Ottawa astronomical observations were obtained on 22 nights, and at Vancouver on 25. At each place wireless time signals from five different sending stations were received and measured at all hours of the day and night, the total number of distinct signals amounting to over 1,200. Operations to determine the relative personal equations of the four observers engaged were made at the Dominion Observatory, Ottawa, both before and after the main series of observations.

Other investigations have established many favorable points in connection with the theory of drift. It has been determined that the substratum underlying the surface crust of the earth is not absolutely rigid but is susceptible, under the action of long-continued stresses, to gradual deformation. Thus continents may be considered as floating on a substratum which, when subjected over long periods of time, acts like a semi-viscous fluid. It has also been proved that at one time there was a much closer association between the forms of plant and animal life on the Americas and Europe and Africa.

## Improved Table Corn

Three Varieties of Sweet Corn Suitable for Western Cultivation

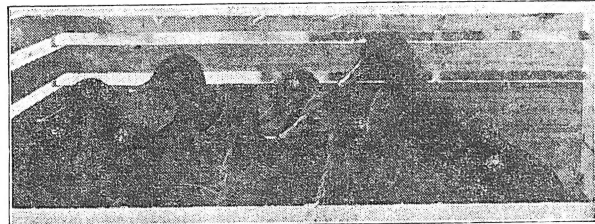

Three varieties of sweet corn, Pickman, Bantling and Early Matador, produced by the Horticultural Division of the Experimental Farms, give great promise, particularly for the cooler parts of the country. Pickman is rather dwarf in habit, bearing its ears close to the ground. When ready for use the kernels are white with a slight purplish tinge, hooded, moderately sweet, very tender and extremely sleek. As the corn matures the kernels change to a pearly black, in which condition they are still tender and sweet. Bantling, also dwarf in habit, was produced from a cross between Pickman and How's Alberta Flint. Its habit of growth is much like Pickman's. The kernels when ready for cooking have an attractive golden-yellow color, broad, moderately deep, quite sweet and tender. Early Matador grows to a height of about five and a half feet, bears medium to large ears usually bearing twelve rows of kernels, which are very sweet. This is proving a very desirable table corn. This report of the Dominion Horticulturist for 1925 shows illustrations of the cobs of these varieties in full size.

## Soviet Purchases in Canada

Louis Kon, trade delegate for the Union of Soviet Socialist Republics, Saturday confirmed the report that an order for \$100,000 worth of hatter twine had been placed by Russian interests with a Bradford firm. Mr. Kon stated that large purchases of other goods were being made in the Dominion.

Possession of an unbroken line of land from the north of French West Africa as a mark of distinction. Hence the native workman saves his money to purchase one or more neckties.

The row is a factory or manufacturing plant that runs 21 hours a day 7 days a week, and turns out a product that is good for man or beast.

## Wild Ducks for Lord Byng's Estate

Lord Byng of Vimy will soon have his Canadian Prairie Express Company handled the shipment through Montreal recently and delivered the ducks to the Canadian priorities. Having expressed a desire to stock his estate, he graciously accepted a gift of twenty live wild ducks from the British Express yards. The ducks seemed to

regard their strange surroundings calmly but they did not take very kindly to human interference. They ignored any friendly overtures even when accompanied by food. They were caught when quite young in the sloughs of Manitoba and have been in the city park at Winnipeg.

## Prevent Grippe—build resistance with SCOTT'S EMULSION

### WORLD HAPPENINGS BRIEFLY TOLD

The King and Queen will hold royal courts at Buckingham Palace on May 21 and 22 and June 21 and 22.

Lady Rhonda has instituted a whitened suffrage campaign designed to influence the Prime Minister to support a measure granting a ballot to all women over 21.

Women students of Oxford and Cambridge Universities took part in a boat race for the first time. The Oxford crew won. The race was over a half-mile course on the upper Thames.

School teachers at Warsaw, especially as regarding progress in studies. They have suggested that authorities bar the radio from school children's homes.

Telephone service between Cuba and Great Britain was recently inaugurated. The rate will be \$7 for the first three minutes and \$2 for each additional minute between Havana and London.

Miss Minnie Laroque, of Montreal, a descendant of perhaps the oldest family in Canada, is dead. Miss Laroque was a descendant of Abraham Martin, the Scottish settler, whose name survives in the Plains or Abitibi at Quebec.

The Westminster Gazette says it has learned that Horatio Bottomley, former editor of John Bull, and once a member of the House of Commons, will resume journalism on leaving Maidstone Prison on the expiration of his sentence for fraud which will probably be in the autumn.

Montreal was a much more law-abiding city in 1926 than in the preceding year, according to statistics just announced by Chief of Police Belanger. There were four murders, one less than the preceding year, but other crimes have shown more than a decrease.

Canada will be invited to send representatives and exhibits to the Government "aircraft show," which will be held in Washington in May. The show, the first of its kind, will enable manufacturers of airplanes, ships and aircraft accessories to exhibit their latest wares.

### Holds Important Position

Village Goldsmith in India Still in Considerable Demand

The village goldsmith in India is a craftsman by hereditary, writes "The Field" in the Times of India.

In the old days, every village of any considerable size was practically self-contained so far as its ordinary life was concerned. There was a man for every domestication of the life.

Not least important of these village craftsmen was the goldsmith, and to this day he still piles his trade on the old lines. Perhaps he does not find it so easy to get a living, for cheap trinkets have now entered the village.

They can be easily purchased in the weekly markets, and these have, to some extent, taken the place of the more valuable jewelry still, he still is in considerable demand, and it is not uncommon to find a man at work in a small village. He finds within his home of professional visits a considerable number of villagers, and his counting is perched for those who wish to have new jewelry made or to have some of the family jewelry reset.

He takes on his head the very model of the leading person of the village, usually the priest, and work freely on, carrying anything from six annas to one rupee per day. His handiwork is no less in number and simple in design, but it is surprising how skillful he is in his work. The character of his work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

His work is in a book of a craftsman's art, and he is the best of his kind in the village. His work is in a book of a craftsman's art, and he is the best of his kind in the village.

### Advice on How to Get Sick

New Jersey Physician Gives Six Rules To Promote Illness

Rules on "How to Get Sick" have been promulgated by Dr. Howard M. Cooper of Rutherford, N.J.

"Eat plenty of starches, get a cold, and look prosperous," he told the Rotary Club here Friday.

"Treat your body like your car and you will soon learn what its trade-in value is."

"When a tight hat, collar, and shirt will bring you down, you won't be able to."

"Get cheap cigarettes, and you won't have to read. You won't be able to."

"Think plenty of coffee, and it gives you 'nerves,' drink more and you won't have any."

"Don't drink water, avoid vegetables, and never sleep eight hours."

### Question Not Yet Settled

Correct Pronunciation of "Pepe" Still Subject to Dispute

The pronunciation of the name of the famous English diarist Samuel Pepys has long been subject to dispute. And the question has never been settled. Some years ago A. H. Blake, after an investigation of evidence reported to the Library Association of London in favor of "Peep," but this was in direct opposition to the practice of Catholic Pepys, one of whom, when addressed as "Pepe," retorted, "my name, sir, is Pepple. A clerk in the office of Pepys in his *Life of Interella*, published in 1679, rhymes Pepys with lips, clearly suggesting he knew his chief as "Piss."

O. O. McIntyre.

### Something to Brag About

A house left Aberdeen and went to London, where she got a situation with a good family. One day, having a talk with her mistress, she was asked where she came from. The mistress said, "Why didn't you tell me you were from Aberdeen. I have lots of friends there, and you ought to have told me." "Yes, well, my dear," she said, "I did, but I was told, 'when I was leaving' Aberdeen, my mistress said, 'Xave, dear, see that you never brag.'"

### Winnipeg Newspaper Union

The Winnipeg Newspaper Union is a union of newspaper workers in Winnipeg, Manitoba. It is a union of newspaper workers in Winnipeg, Manitoba. It is a union of newspaper workers in Winnipeg, Manitoba.

### Historic House for Sale

"Home, Sweet Home" is for sale. The famous house at East Hampton, N.Y., in which John Barton Payne spent his boyhood and inspired the famous song is to be disposed of to settle an estate.

### Milburn's Warm Bandages

Milburn's Warm Bandages not only soothe the stomach and intestinal worms pass from the child without being noticed and without treatment to the mother. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infant's stomach and maintaining it in vigorous operation, so that, besides being an effective remedy, they are tonic and health-giving in their effect.

Investigation has shown that more than 200,000 cubic feet of gas escapes daily from old wells in the Panhandle area of Texas.

When a man is down his friends stop kicking him and his friends begin.

The woman or girl who d-differs in making her own underwear will find these attractive dandy quilts easy to fashion and a style that does away with needless material at the waist and hips, giving to the well-washed, shapely form, which fastens at the sides, while the back is slightly gathered to a band. View A shows the straight lower edge trimmed with wide lace, and View B has the side rounded and finished with narrow lace. No. 12 is in size 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

## Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines To Break Colds.

Children's digestions are easily upset by too much "dosing." Vicks VapoRub being externally applied, does not upset little stomachs.

At the first sign of a cold, rub Vicks VapoRub on the chest, throat, and back, or any other cold trouble, apply Vicks freely. There is nothing to swallow—just "rub it on."

**VICKS VAPORUB**  
Over 17 Million Jars Used Yearly

### France Is Playing Safe

Will Not Discuss Armament Problem With United States

France has objected in the past to suggestions that renunciation of her debt might be the reward for an agreement restricting armaments. She does so on the proper ground that financial pressure cannot be permitted to determine internal policy of security. Consequently, when she refuses to discuss the "collage" she prefers to seek a solution of the armament problem by considering land, sea, and air questions together, and through the League of Nations, to which the United States does not adhere, she means just one thing—she means that she thinks she has nothing to gain from America and something to lose in Europe. The Outlook, New York.

## ALMOST HELPLESS WITH RHEUMATISM

### A Nova Scotia Lady Tells How She Found Relief

Among the well-known residents of New York, N.Y., is Mrs. William S. S. who tells for the benefit of other sufferers how she found relief from a severe attack of rheumatism. Mrs. S. says: "In the early fall of 1926, I contracted a cold which developed into a severe attack of rheumatism. It was so bad that I was almost helpless. I had been for some years past. The pills not only banished the rheumatism, but helped me in many other ways. I tried Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, constipation and stomach trouble. Take them as a tonic if you are not in the best of physical condition and will take the resistance that will keep you well and strong. Sold by all druggists or sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont."

### Germany's Newest Hotel

Is Located at Highest Point in Bavarian Alps

Germany does not produce skyscrapers, but she has achieved some what the same effect by putting an hotel more than 3,000 feet in the air, at the country's highest mountain, the Zugspitze, in the Bavarian Alps. The new hotel, which has just been opened, is at the top of the cable railway running to the summit of the Zugspitze, and lies above the perpetual snow line. The building is masterfully constructed to resist the worst storms which howl around the peak and is anchored in solid rock.

Another German construction feat will be the completion of the highest dam in Europe and one of the highest in the world, which is now being built in the valley of the Saale, a small river in Westphalia. It will be about 125 feet high and some 2,500 feet long. The reservoir thus formed will hold about 150,000 gallons and will serve as the water supply for a district containing 100,000 people. Two years more will be required to complete the dam, and it will take three additional years before it is filled.

It is in for Lane Back—A Irish rub-in with Dr. Thomas' Eucalypti will relieve lane back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Profitable Farmers' Company Saskatchewan Co-operative Elevator Company Made Handsome Profit Last Year

Profits of \$1,062,164 were earned by the Saskatchewan Co-operative Elevator Co., Ltd., during the financial year ended July 31, 1926. Net profits amounted to \$255,514, the largest profit in the history of the company, and the exceeding the previous year's net profits by almost \$200,000.

The Saskatchewan Food Elevator Ltd. has purchased the grain handling facilities of the company.

Through the sale of the company, shareholders will receive in excess of \$150 for each \$750 invested in 1911, when the company was organized.

"You've heard about Sandy McTavish, haven't you?" asked Fred Umlauf, yesterday. "Well," he went on, "Sandy is a Scotchman through and through, but was born in this country to save the face from Scotland."

After the first fox I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever. I did not get a young girl's price, a box of all dealers.

I wrote my mother about my condition, and she sent me three boxes of MILBURN'S HEART NERVE PILLS.

After the first fox I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever. I did not get a young girl's price, a box of all dealers.

### Wireless in North Valuable

Director of Signals Says Commercial Business Is Growing Rapidly

Six commercial wireless stations operated by the Royal Canadian Corps of Signals for the department of the Interior in the Northwest Territories and the Yukon, experienced an increase in business of more than 38 per cent. last year, as compared with the previous year, according to Col. E. Forde, director of signals, Ottawa.

The stations are located at Edmonton, Fort Smith, Fort Simpson, Mayo Landing, Dawson City and Alaskan, with a station operator at Herschel Island. The S.S. Bay Mand, which is wintering in Coronation Gulf, is in communication with the system through the Alaskan station.

One important public service, said Col. Forde, is the handling of the meteorological reports which are sent in to Toronto twice daily.

"The people living in these far northern districts by this chain of stations are able to get the important news of the world almost as quickly as you in Calgary," said Col. Forde. "In the last federal election the results were sent out over the wireless and picked up at our stations immediately. They are invaluable."

"One factor in increasing the revenue of the system is the use of the traders and trappers make of the stations in getting the world markets," he said. "Also there is a heavy rush of traffic prior to the opening of navigation on the Mackenzie river. People ordering their supplies use the wireless. There was a big demand at this time last year when there was a cold mail from Fort Smith when these participants were able to arrange for their winter transportation and their supplies."

"The wireless stations are of great value to the Government and Royal Canadian Mounted Police as they are able to keep in touch with their officials in the north at all times of the year. In the winter time mail has to go in by dog team and delivery is only made a couple of times during the season," he said.

"The technical men operating the various stations, who had a thorough knowledge of gas engines and electrical equipment, are of considerable assistance to the people in these outlying posts of civilization," added Col. Forde.

### Finlanders Dislike Red

Will Not Tolerate Color Which is Associated With Bolshevism

Anything so colored with the color red is difficult to sell in Finland. An American automobile manufacturer assigned a large number of automobiles to Finland, and while most of the cars sold readily, 10 of them were unsaleable owing to the various shades of red that had been used in painting the cars. They had to be repainted in the Finnish colors, and the manufacturer is now having 10 new cars painted in the Finnish colors.

It will prevent ulcerated throat. The first symptoms of sore throat, which is caused by the bacteria of inflammation, take a spoonful of the throat lozenges, and you will find the throat and swelling that are so painful. These lozenges were particularly subject to the throat, have found themselves immune to attack.

"There are times when I wish I were a man," she said wistfully. "When?" inquired her husband. "When I have a milliner's shop and think that I could make my own wife by giving her a new hat."

Be sure of your aim in life before moving into a glass house.

When everybody else is satisfied the reformer has the blues.

## Called "Funny Face" Cried Self To Sleep

Miss Gussie Frutczweig, Bronx, N. Y., writes: "For months I tried in vain to clear my face of horrible pimples. I even overheard my dearest friend refer to me as 'funny face' and everyone laughed. I cried bitterly. I read about CARTER'S LITTLE LIVER PILLS being used successfully to clear complexion when due to the poisons from constipation and finally tried them. Well, my picture tells its own story, doesn't it?"

CARTER'S LITTLE LIVER PILLS move the bowels in a gentle manner free from pain and eliminate the poisons of constipation from the system. These poisons, unless removed, are absorbed by the blood and appear in the form of skin eruptions and blemishes. CARTER'S LITTLE LIVER PILLS in red packages, 25c. and 75c. Try them tonight. Tomorrow refreshed. All druggists.

### SUNDAY SCHOOL LESSON

MARCH 27  
REVIEW: — STUDIES IN THE CHRISTIAN LIFE

Golden Text: If ye love Me, ye will keep My commandments. John 14:15. Individual Reading: Revelation 2:17.

Review By Means of Allusions

The devil can make Scripture his purpose. Shakespeare.

May we never be deaf to the cry of the man from Macedonia, in whatever way his need is made known to us.

If your character is infatuated by love of praise, desire of money, eagerness for pleasures, the last for revenge, the desire of distinction, losses of death, the salt loses its savor. Erasmus.

To go through life and plead at the end of it that you have not broken one of the commandments is but what the servant did who kept his talent carefully wrapped, and yet was sent to answer God for his uselessness. Friends.

To me nothing seems more natural than the Son of Man should be carried of the Spirit into grim soil, and there confront the tempter. Carlyle.

Japan has seen believers scattered abroad and many with no second giving heed to the things that were spoken.

## "CASCARETS" FOR YOUR BOWELS IF HEADACHY, SICK

To-night! Clean your bowels and end Headaches, Colds, Sour Stomach

Get a recent box. Put aside just once the Salts, Pills, Castor Oil or Purgative Waters which merely force a passage through the bowels, but do not thoroughly cleanse, loosen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "bowels" pure and fresh with Cascarets, which thoroughly cleanse the stomach, regulate the digestion, soothe food and food gases take the excess bile from the liver and carry out of the system all the accumulated waste matter and poison in the bowels.

A recent box will make you feel great by this morning. The food will not be cheap, never sticky, slimy, and cost only 10 cents a box from your druggist. Millions of men and women take Cascarets now and then and never have Headache, Bloating, Sour Stomach, Indigestion, Sour Stomach or Constipated Bowels. Cascarets relieve in every household children just before they leave.

Manned by Women

The Russian freighter Karl Marx recently arrived at the port of Los Angeles by a crew composed entirely of women. They were men's uniforms and had short hair. The ship's captain, a man, said he never had sailed with a more efficient and active crew.

## BRONCHITIS

Leaves a bad cough—no does "flu." These lingering coughs are quickly soothed by Chamberlain's Cough Remedy by taking. Now sold at pre-war prices—25c. 50c.

BAKERS' OVENS—Write for catalogue and list of used ovens. Hubbard Oven Company, 1100 Queen West, Toronto, Ont.

### HATCHING EGGS

and chicks from Exhibition Grand Backs, Reds, and Impaired Leghorns, leading poultry shows, 25000 hatched already, which are now being shipped. Quality and Service is our only incentive. Write for beautiful circular. We are the only, 2511 LAK, 3110 H. H. STREET, A. C. M. S. Poultry Farm, Fairbairn, Minn.

## RURAL CREDITS BILL NOW GIVEN THIRD READING

Ottawa. Third reading was given by the House of Commons to the bill to establish a federal system of rural credits. The bill is the same as that which passed the House last year but failed to become law.

The bill provides for the constitution of a Canadian farm loan board which will issue farm loan bonds to make long term loans to farmers. The Dominion Government is to provide initial credit for the board to an amount not exceeding five millions and subscribe five per cent. of the capital stock as loans are made. The Government of each province in which loans are made is required to subscribe to the capital stock of the board an amount equal to five per cent. of the loans. The borrower is required to subscribe the five per cent. of his loan, payable at the time the loan is made. Farm loan bonds may be held by the Minister of Finance to the extent of 15 million dollars.

During discussion, Henri Bourassa (Independent, Quebec), moved an amendment, that, subject to the approval of any provincial board, loans may be made through "co-operative colonization societies," as well as through co-operative societies or to farmers directly. The amendment, said Mr. Bourassa, would place colonization societies on an equal footing with co-operative societies in the bill; and would include Société Nationale de Colonization, Montreal, operating under a provincial charter. The amendment was accepted by Mr. Robb and carried.

## May Prohibit Traffic In British Honors

Text of Bill Introduced in House Has Been Published

London. The text has been issued of the bill to prohibit the sale of royal honors which was introduced in the House of Commons by Ernest Thorneycroft, M.P. Thorneycroft called it a measure to prevent "millionaires buying their honors by the sale of honors."

The bill proposes that any one who is a party to an agreement in regard to recommendation that honor be conferred upon anyone in return for the payment of funds to a political party, be liable to a fine not exceeding \$500 or six months' imprisonment with or without hard labor, or to both fine and imprisonment.

All political parties would be compelled by the bill to submit each year to the House Secretary, certified complete return of all subscriptions received by them during the preceding year, failing which responsible officials of the party concerned are liable to the same penalties as above.

## Explorer Leaves for China

Roy Andrews Will Probe Secrets of Gobi Desert

Sentinel. Mr. Roy Chapman Andrews, noted explorer, has sailed from here on route to China again to ferret out the secrets of the Gobi desert, which he believes was the "cradle" of mankind. The unsettled conditions in China make the date of his departure from his headquarters in Peking problematical, but the expedition will be prepared to push to the west over the age-old caravan trail to the desert as soon as the situation warrants.

On his last trip into the region, Andrews found dinosaur eggs estimated to be millions of years old.

## Retires From Public Life

Former Chinese Premier Has Renounced All Worldly Honors

Rome. Li Cheng Hsueh, former premier of China, who is an ardent Roman Catholic, has renounced worldly honors and sent the Pope a case containing the high civil, military, and diplomatic decorations awarded him during his long diplomatic career. Along with the decorations the veteran Chinese diplomat sent the Pontiff a letter informing him of his decision to retire to private life and renounce all mundane pomp.

## Proposes Help for Canadians

Ottawa. A proposed resolution at meeting that citizens of Canada desirous of settling on Western lands should receive from the government of Canada the same assistance and treatment as the citizens of Europe has been placed on the order paper of the House by Oscar Doughtier, Liberal, Bellechere. The question will probably be debated during the session.

## Asks Five Millions To Leave Shanghai

Defender of City Willing to Come to Terms With Nationalists

London. -- With the Nationalist forces in China keeping up their intensive struggle to surround and isolate the important Shanghai position from Shanghai, comes a report from Shanghai that General Chang Tsoing, Chang, the Shanghai defender of that city, has offered for a large money consideration to evacuate the terrain he holds and thus ease the region from becoming a zone of military localities.

Chang desires about \$5,000,000 to bring into the province of Kiangsu, says a despatch to the Westminster Gazette. If the amount is not forthcoming, it is asserted he intends, if necessary, to retreat upon Shanghai itself, thus bringing the prize city of the Orient into the struggle for mastery between the northern and southern. Chinese merchants in Shanghai are said to be unable or unwilling to raise the large sum demanded.

## Workers Risked Lives Rescuing Entombed Man

Was Trapped Thirteen Hours When Sifted Carved In

Pitney Springs, N.C. Entombed for thirteen hours in a 75 foot well, Jeff Ashworth who had been plunged by a cable in the well, was rescued after a group of rescue workers dug away the debris all night by the light of automobile headlights, farm lanterns and candles.

Ashworth was placed in the hands of physicians when he was rescued. He said that he rested easily for the last five hours of his entombment.

When he was rescued, Ashworth said he was exhausted but no outward physical injury was indicated.

As soon as Ashworth's plight became known a crowd of volunteers assembled and began removing the rock caving in of the well. In shifts of three men each the rescuers were lowered into the hole and as fast as they could fill buckets the debris was drawn to the top.

## Infantryman and Rifle Are Most Important

Nothing Has Been Invented to Replace Them in Warfare

Ottawa. Among all the instruments of warfare which have been invented during and since the last war there is nothing to take the place of the infantryman and his rifle, says the keynote of the report of the council presented at the annual meeting of the Dominion of Canada Rifle Association here. A feature of the council's report was the recommendation of the treasurer that careful consideration be given the suggestion that the sale of the recent model Canadian rifle by the Government be reduced from two officers and 15 shooting members to two officers and 15 shooting members. The suggestion was made in view of the increased cost of ocean transportation.

## Anxious To Prevent Wars

League Interested in Keeping Peace Among Non-Member Countries

Geneva. The League of Nations is interested in preventing the outbreak of any war, regardless of whether the nations concerned are members of the League. This was made clear in a report adopted by the League council committee charged with interpreting the League covenant as an instrument for preventing war. No nations are named in the report but it indicates that any dispute, even though it involves the United States, Mexico, Turkey or any other non-member, becomes a matter of concern to the council. That body should study the advisability of bringing into play all preventive measures including naval and naval demarcations against the state which adopts a hostile attitude.

## Thought Government Going Broke

West. Faintly Bored, Fla. -- A long line of negroes staged a silent run on the United States Post office here for heavy withdrawals from the Postal Savings Department, following reports circulated widely through the negro section that the Government was going broke.

## Advocates Alberta Line

Ottawa. -- Hon. C. A. Dunning, Minister of Railways, intends to bring down a bill to extend for two years the time for the completion of the joint section of the Canadian National branch line from Rossburg, south to Westerly, Alberta.

## Planning British Hollywood

Great Interest Being Taken in New Concern Capitalized at \$5,000,000

London. Plans for founding a British Hollywood already have been started by British motion picture producers, slated over the prospective passage of the bill now before parliament to foster British motion picture production.

"British Incorporated Picture Limited," is being formed to promote the British Hollywood. The new concern, which is capitalized at £2,000,000, plans to promote British pictures on an empire wide basis. It is stated that artists, authors, and actors are actively interested, including John Galsworthy, Arnold Bennett, Frank Langford and E. J. Thorneycroft.

Extensive modern studios are to be built near London and directors are to be borrowed from American organizations on a reciprocal basis. Five year options on the film rights of stories by fourteen well-known authors are to be secured, it is announced. These include Arnold Bennett, John Galsworthy, Sir John Galsworthy, Sir Arthur Conan Doyle, E. J. Thorneycroft, Sir Philip Gibbs and Rafael Sabatini. Affiliated companies will operate throughout the empire.

## H. B. Road Pushing Ahead

Steel Now Within Eighty Miles of Port Nelson

Winnipeg. Laying of steel for the Hudson's Bay Railway is now across the Limestone River and within 80 miles of Port Nelson. The report brought here by Constable R. P. Warren of the P.A.S. division of the provincial police force. He reported that work was progressing very favorably under ideal weather conditions.

Constable Warren has just returned from a long patrol into Manitoba's hinterland, seeking evidence as to the alleged poisoning of game by trappers. During the trek, Constable Warren shot a flock of geese and submitted several days on the trip. He also reported that he was compelled to destroy four of his hushies owing to lack of rations.

## WOULD CREATE A SELLING AGENCY FOR LIVE STOCK

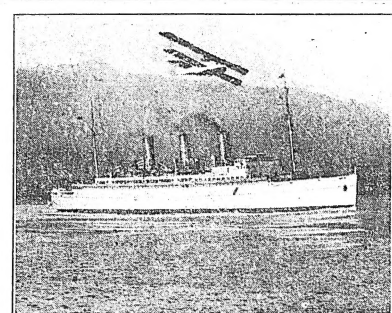

Emotion. Establishment of its own selling agency and freedom from several days on the trip. He also reported that he was compelled to destroy four of his hushies owing to lack of rations.

## THE OUTLOOK FOR IMMIGRATION IS VERY FAVORABLE

Ottawa. Immigration prospects in the present year are considered particularly favorable in view of the extensive activities of the Department in connection with which Hon. Robert Borden is going to Europe at the conclusion of the session. Every arriving ship is full of intending settlers.

## Prince Wins Guards Race

Bloomsbury, Eng. The Prince of Wales, riding one of his own horses, won the Lord Mansfield Cup in the Guards' Guards' endurance riding race at the Bloomsbury hunt meeting. There were fourteen other entries. The prince rode a well judged race and finished a length ahead of the second. He was given a great ovation by the crowd.

Thousands Welcome White Empress

Over 10,000 people lined the quay at Vancouver to welcome the Canadian Pacific Empress of Canada, flagship of the Pacific fleet, when she returned to her home port from the Orient recently, following in her wake a host of white paint. She was escorted by several Canadian Government warships. The decision of the Canadian Pacific to make their entire Pacific fleet white, has met with approval in the shipping world and also by passengers with whom these giant trans-Pacific liners are popular. They will be known as the "White Empresses of the Pacific" and make a beautiful picture against the blue waters of the Pacific.

## CONSIDER PLANS FOR CELEBRATION OF JUBILEE DAY

Ottawa. At the first meeting of the National Committee for commemoration, held here, formal organization was carried out, officers were elected and numerous suggestions were received as to the form the celebration should take.

A suggestion that His Majesty the King should open the celebration by touching a shield in London, home of the British Empire, was carried out in the force of the Parliament Buildings would ring out, and be broadcast, to let all Canada know of the nation's birthright, was considered and practically approved.

During the discussion, M. J. Gold, president of the Canadian Feeders' Federation, said that great attention should be paid to the care of children and young people in the jubilee celebration. He said that the organization he represented was not greatly in favor of spending a large amount of money on parades and fireworks.

George Edwards, president of the Canadian Council of Agriculture, said he believed he expressed the views of organized agriculture when he urged upon the committee that the celebration should not be predominantly military. There should be pageants where the achievements of the pioneers should be portrayed.

The draft of the organization of the corporation, consisting of the committee, approved by act of Parliament, was agreed to. A vote of thanks was expressed to Lord Willington and Lady Willington.

In reply, Lord Willington stated that he was proud to be a citizen of Canada at the present juncture and that he, and Lady Willington, would join in the work to make the commemoration most successful.

## Plan To Visit Provinces

Canadian League Members Will Wait on Ministers of Education

Ottawa. Deputations to wait upon the ministers of education in each of the nine provinces of the Dominion are being organized under the auspices of the League of Nations Society of Canada with a view to getting definite instruction on the origin, aims and work of the League of Nations included in the curriculum of the elementary schools throughout Canada, it became known here.

A special committee under the chairmanship of Senator H. A. Belcourt has been dealing with the matter.

## Inserted Without Authority

London. -- Advertisement appearing in newspapers in Scotland stating that the Canadian Government guaranteed employment to Canadians throughout the year were inserted without approval of the Canadian ambassador here, Hon. L. C. M. Avery, British Isles Secretary, stated in the House of Commons that steps were being taken to amend the situation.

## Prince Wins Guards Race

Bloomsbury, Eng. The Prince of Wales, riding one of his own horses, won the Lord Mansfield Cup in the Guards' Guards' endurance riding race at the Bloomsbury hunt meeting. There were fourteen other entries. The prince rode a well judged race and finished a length ahead of the second. He was given a great ovation by the crowd.

## Gold Seekers Stake Claims in Blizzard

Another Rush Strides to New Area in Nevada

Tonopah, Nevada. The land of gold at Tonopah held ever-increasing numbers in its spell, as natives and desert rats alike, heard the news of the latest discovery at Tonopah. Two hundred men and women straggled through a blinding mountain storm from Goldfield to Tonopah, and stakes on claims in the new area.

The rainbow chasers plunged on through the blizzards while the gold seekers to such strength that it blew the storm down and plate glass windows out of the Goldfield hotel.

The temperature was 12 degrees below zero, with a forty mile-an-hour wind whistling across the wastes of sage and sand.

The rush to the new district began before dawn and long after dark the last stragglers began to reach shelter here. Mines at the gold zone, a head mine 15 miles from Tonopah, threw open their doors and led in the dash.

The latest discovery of gold reached from the head of a precipitous canyon, where a geologist found ore as rich as 85 to the ton, at a depth of 20 feet, in an old shaft.

## Unemployment Insurance

Labour Member for North Winnipeg Introduces Resolution

Ottawa. A resolution declaring that the committee on industrial and international relations should be instructed to investigate and report on the establishment of a system of insurance against unemployment, sickness and invalidity was discussed in the House of Commons.

A. A. Heaps, Winnipeg North, Labour, the mover of the resolution, said in opening that he did not expect the committee would be able to report on the matter this session or perhaps for two or three sessions. It was a big undertaking requiring extensive investigation.

A royal commission, Mr. Heaps said, had been appointed in Great Britain to investigate unemployment insurance and had reported recently that this form of insurance was now a permanent feature in the social life of Great Britain. The act had not been adopted in Great Britain according to the commission.

Mr. Heaps stated the tariff board afforded industries in Canada an opportunity to ask for increased protection.

The human element in industry, however, was not given any protection.

## THE OUTLOOK FOR IMMIGRATION IS VERY FAVORABLE

Ottawa. Immigration prospects in the present year are considered particularly favorable in view of the extensive activities of the Department in connection with which Hon. Robert Borden is going to Europe at the conclusion of the session. Every arriving ship is full of intending settlers.

The Department has just renewed the agreement with the Canadian Pacific and Canadian National Railways whereby representatives of the companies are to continue, on the continent, the selection of a hand picked class of handiwork to engage in work as farmers, farm helpers and domestics. The Department is to accept the certificate of the railway representatives as to the occupation of fitness of the immigrants for the particular work to which they will be directed, while the companies also guarantee to locate the new comers in positions.

For the purposes of the agreement, which is to be a three-year continuation of the existing arrangement, expiring next September, Europe will be divided into three areas, the principal one being the British Isles, France, Belgium, Germany and the Scandinavian countries. People coming from these countries will not require the certificate of occupational fitness but more rigorous condition will be applied to the others.

When the minister of immigration is in Great Britain he will take up with the British authorities the question of extending the application of the plan of assisted immigration to the British settler's plan. This is largely a problem of securing the necessary land and, in that connection substantial tracts are being offered at very low rates by the railways and the Hudson Bay Company. The whole immigration outlook is considered to be most favorable.

## SOVIETS WORRY OVER SEIZURE OF VESSEL BY CHINA

Shanghai. A windy battle is going on between Peking and Moscow over the seizure of the Russian vessel Pan Lai Lou and the arrest of Min, Goudin and three Soviet officers. In a new note demanding the release of the officers and the vessel, the Soviet government accuses White Russian forces of "planning" the seizure.

Placing "reputable" documents aboard the boat to afford a pretext for its seizure and conversion into a warship. The note asserts the officers were subjected to "barbarous indignities."

Mao Tse Tung, war lord of the Northern Chinese armies, who has issued the two previous Soviet protests, makes the charge that Russia not only has violated the Chinese-Japan agreement, but has ignored international obligations by abetting the Nationalist movement at Hankow.

Some interruption of telegraphic communications with the fighting areas west and northwest of Shanghai prevented definite news reaching here. Whether this lack of news is resulting from non-cooperation, or from White Russian capture, is not known. That city was captured by the Chinese recently.

There were rumors of negotiations between General Li, commanding the Shanghai troops, and General Chang Kai Shek, commander-in-chief of the southern armies. Whether an agreement whereby Shanghai could be peacefully occupied by the Nationalists.

## Canada Will Remain Loyal

Is Devoted Part of Empire Says Sir Vincent Massey

New York. Canada will for all time remain a devoted, loyal part of the British Empire and its policy toward other nations will be one of friendship, Hon. Vincent Massey, Canadian minister to Washington, told a distinguished gathering of two thousand here. The occasion was the diplomatic dinner of the American Women's Association, and Mr. Massey was one of a group of speakers representing 11 nations. Ambassador Sir George Howard spoke for Great Britain.

Mr. Massey's brief address was received with great applause.

Mr. Massey voiced his appreciation of the warm reception he had received at the reception and said he hoped to make his office another important link in the strong chain of friendship which stretched across the border.

## To Lengthen Life Span

Says Age of 125 Years is Possibility of the Future

Paris. A life span of 125 years and old age of a few months instead of many years are among the future possibilities discussed by Dr. Serge Voronoff, the eminent specialist in gland operations, before an assembly of foreign newspaper correspondents.

It has been established, said Voronoff, that man once lived 125 years.

"Therefore," he added, "I and others have the right to live that long."

Voronoff said the glands make the human machinery run and remove poisons that are produced by glands means that life can be prolonged. He added that a thousand glands had been grafted over a period of seven years and the future would tell how long the new glands would last.

## Police Hunt for Poison

Boxes Lost Off Hospital Van Picked Up By Children in London Slums

London. Spooks of police worked feverishly all one night trying to recover 261 tubes of powerful poison which fell off a hospital van in London's east side. The tubes were picked up by small children who used them for playing.

All sides the police trailed the missing tubes from one child to another and by noon had recovered 260. The tubes were packed in light orange colored boxes which made them very desirable toy in the eyes of the poor children of the section.

## Saar Compromise Plan

Berlin. Foreign Minister Stresemann's compromise plan, this is a compromise plan for polling the Saar Valley after the withdrawal of occupational troops was unanimously approved by the cabinet. His policy regarding the status of Germans in Upper Silesia also was upheld.

## International Grain Show

Regina is Planning for Big Congress in 1932

Plans for the holding of an international grain show at the 1927 summer exhibition in Regina to be followed by a World's Grain Congress during the 1932 exhibition were discussed at a meeting of the Regina Exhibition board recently.

The agricultural committee's report which was adopted by the full directorate expressed the conviction "that the present time is not only most opportune for holding an international grain show at the Regina exhibition, in view of the fact that the other important centres are seriously considering similar action, but that the establishment of such a show this year would prove the most acceptable testimony of the World's Grain Congress at Regina in 1932."

"By continuing the show and keeping it up to international standard during this and the succeeding years, the greatest possible aid will be given toward a successful larger show in 1932. Speaking frankly, this is the ultimate aim of your committee, and the present plans for this year's international grain show, as well as the plans for the shows of the following years, all centre around a World's Grain Congress at Regina in 1932."

The decision in committee tonight on the wonderful possibilities of holding an international grain show here, with sufficient cash prizes and championship trophies offered to make it attractive as an international event and thus, by stimulating and increasing interest in this show each year, gradually prepare for the World's Grain Congress. There is no question in the minds of the members of your committee that Regina should lead as an international grain exhibiting centre or that this is the logical place for the holding of a world's congress."

Prize money totaling \$252 divided into 20 prizes will be offered in each of three classes—for spring wheat, Manitoba variety, for winter wheat, and for winter oats.

Addition of other crops will be made from time to time, as the first three prove successful.

### Reviving Forgotten Craft

Display of Tinselled Prints May Bring Art Again Into Favor

In a little room, behind a new jewelry shop in Old-Street, in the city of London, is hidden all the remains of an almost forgotten craft which is once again beginning to feel the stirrings of new life.

It is the tinseeling, in brilliant colors, of prints and portraits, and its only living exponent is the people known as the tinseelers, who are in a few pounds area, content to raise upon its cunning, resources and to regard them as something irrevocably obsolete.

Then he was persuaded to exhibit 60 of them at the Faculty of Arts Gallery, and now they have become the latest craze among wealthy collectors.

Asked if there was really anything in the renaissance of revival of this art, Mr. Webb said:

"They tell me I have a collection that knocks the one in the London Museum into fits. I have sold quite a number lately, particularly to Americans, and a lot of people have been making inquiries."

"I didn't troubled much about it, but people started making a fuss, but I've done these," indicating some framed pictures. "About the exhibition, and, of course, I may work up a business again."

"I was taught the work thoroughly as a boy, as was my father before me. It was his trade who started the business, so I am the third generation, and it is possible that I may not be able to succeed him."

"I have known dies, most of them extremely small. All are old, but, to my knowledge, no new one has been made for at least 50 years, and I have seen a hundred years old."

"The greatest difficulty is getting the dies. No one else has it. The trade secret has been the power on the back of the hand, and the hand is the only way to do it."

The people of Aztec, a desert village in Tripoli, North Africa, are forced to live in underground dwellings, built by their fathers, through the earth, in order to withstand the temperatures of 124 degrees Fahrenheit.

Children are forbidden, on penalty of death, to go outside the caves. The houses are built of mud, and the walls are covered with a thick layer of mud.

The people are very poor, and live in a state of poverty. They are very superstitious, and believe in many strange things.

W. N. C. 1472

## Improving the Tomato

Endeavoring to Secure Early Varieties Without Lowering the Quality

Good progress is being made by the Dominion Horticulturist in developing by breeding and selection improved varieties of the tomato. An effort is being made to secure in early varieties the same excellence as some of the later sorts possess. Selected strains produced from crosses of Almeri, Tommy Best and Livingston Globe, when used in combination, are showing highly desirable uniformity for carliness, with fine shape and quality of fruit. A feature of interest is that where a late maturing variety like Livingston Globe was crossed with Tommy Best a reduction in the number of days from sowing the seed to readiness for use was recorded. One, a cross between Almeri and Tommy Best, has given a most promising sort, possessing the earliness of Almeri with the smoothness and symmetrical form of Tommy Best. The quality of the fruit is said to be superior to Almeri, being less acid.

## Immigrants Guaranteed Work

British Immigrants Under Empire Settlement Plan Will Be Looked After

J. S. Woodsworth, (Labor, Winnipeg North Centre), read in the House of Commons from an advertisement which appeared recently in the Glasgow Gazette of Scotland, stating that Canadian immigrants were guaranteed employment by the Canadian government throughout the year. Mr. Woodsworth asked if this was so, and if not would the department take steps to stop misrepresentation?

Hon. Robert Ferrie, minister of immigration, stated that immigrants coming to Canada, on the two point rate under the Empire Settlement agreement, were guaranteed employment, but there was no guarantee that such immigrants would remain in that employment. The department undertook to keep track of these immigrants for five years. Those arriving in the country, apart from the Empire Settlement scheme came on their own responsibility, however.

## Profitable for the Jeweler

Provincial Society Women in England Rent Gains Instead of Buying Fondness of provincial society women for jewelry to wear on festive occasions does not run them into extravagances. They simply go to the local jeweler and hire what they need for the evening.

In the west of England as well as several other midland towns the jewelry store is a meeting place for well-known residents and when a big luncheon or dance is scheduled the jeweler lets out rings, bracelets, earrings and pendants at a moderate charge.

It is no uncommon thing for one store to have as much as £1,000 worth of jewelry lent in a single evening. In many cases the wearer has the same article time after time and has paid sufficient money in small amounts to have purchased it outright.

## Trains in Germany Slow

Berlin-Vienna Express Takes Twelve Hours for 300 Mile Trip

An effort to speed up German train service, especially on the international lines, has been promised by the federal railway administration in response to numerous protests from the national chamber of commerce and tourists agencies.

The complainants point out that the express Berlin-Vienna express takes more than three hours to make the two-mile trip to Dresden. The Berlin-Vienna express, also an extra-fast train, requires 12 hours for the 300-mile trip, while the Paris and London express on the 10-hour stretch from Berlin to Cologne are scheduled on a running time averaging 35 miles an hour, including numerous stops.

**Puzzling Medical Minds**  
A four months old baby suffering from two spontaneous fractures is puzzling the best medical minds in Colorado. The bones were broken when the baby lay quietly in its cot.

Surgeons and child specialists attending the baby in the clinic at Denver, crowded about the cot, making a thorough examination. But none was able to explain the strange case.

"Why are you not working with the rest?" asked the baby's visiting physician.

"Oh, I'm in," was the candid reply.

"But surely that people can work," argued the baby.

"Yes," retorted the inmate, "but I'm not so daff as that."

The native dog in Japan is quite tame and cowardly.

## The Scourge Of Cancer

Lord Atholstan's Prize Still Remains Unclaimed

Will the next five years be more fruitful than the last five in the search for a cure of cancer? For it is just five years since Lord Atholstan, millionaire proprietor of the Montreal Star, offered a prize of £25,000 to the "graduate or student of any university who within five years after this date is the first to discover a medicinal treatment for the effective cure of cancer, the decision to be left to the Royal College of Physicians and Surgeons in London, England."

The prize has not been won, although research workers throughout the world have been continuously struggling with the problem. Now there is a prospect of increasing sums of money being devoted to research, and Sir Berkeley Moynihan, one of the world's greatest cancer experts, has issued a call for what he describes as a "national uprising against the scourge." Sir Berkeley is president of the Royal College of Surgeons, and in a meeting which he held in British medical history he told his audience of 700 persons that 160 of them would die of cancer.

Two separate questions remain to be answered: (1) What causes cancer? (2) What cures cancer? There is no necessary connection between the answers to these questions. It would be quite possible to find a cure—apart from the knife—without having discovered the cause; and on the other hand the discovery of the cause would not make the discovery of a cure certain, although it would probably bring it nearer.

In neither direction can the progress recently made be properly appreciated by anyone who is not an expert. For example the famous work of Mr. Burnard and Dr. Gye in isolating and examining certain ultra-microscopic organisms said to be associated with cancer is far too technical and ambiguous for the lay mind, which demands clear-cut conclusions. Yet these have been the most striking performances during the past five years in an attempt to answer the question, "What causes cancer?"

Is local irritation the sole cause? Is there a cancer parasite? Has cancer anything to do with the blood stream, and if so, can it be controlled by diet? These are some of the questions to a study of which research workers are devoting their lives.

## Plans Flight to Tokio

A flight to Tokio, as well as to the North Pole is planned for the huss Zeppelin, which is now under construction at Friedrichshafen, Germany, says Dr. Hugo Eckener, Zeppelin expert. It is expected that the flight will be attempted in the autumn of 1928. The North Pole flight can be made in two days and that to Tokio in four, it is expected.

A London trader who keeps a black list of non-payers says Scotsmen and Jews are the best payers. Englishmen are just average, while Welshmen and Irishmen are the worst.

## Buying Autos by the Pound

Interesting Information Given in Survey by Cleveland Bank

How much do you pay for automobiles by the pound? Of course, motor cars aren't bought and sold that way, but the price per pound makes an interesting comparison. It has been figured out by a Cleveland bank for fourteen leading makes of closed cars.

In comparing cars of various manufacturers, it is to be remembered that a great deal more than mere weight of materials goes into motor-car making and into motor-car prices. Mechanical quality, performance, power, strength, durability, style, warableness, finish, are all to be considered.

But taking cars by their weight, it is found by the Cleveland Trust company that Ford gives the most for the money, and purely on the avoirdupois basis, Rolls Royce gives the least.

Here are the listed prices by the pound: Ford, 25¢; Chevrolet, 31¢; Dodge, 32¢; Overland, 36¢; Star, 37¢; Nash, 38¢; Buick, 39¢; Studebaker, 40¢; Oldsmobile, 41¢; Hudson, 42¢; Cadillac, 35¢; Lincoln, \$1.02; Packard, \$1.07; Rolls Royce, \$2.91.

This showing leaves the Cleveland institution to philosophize upon how much more the dollar car has today per pound of fine, comfortable and fast vehicle than was possible a few years ago. It says:

"Twenty-five years ago a good bicycle weighed twenty-five pounds and cost \$100, which was \$4 per pound. The workmanship of the modern automobile is much finer than that of the old bicycle and the materials are of higher grade, but the cost per pound of the automobile is lower than that of many kinds of relatively crude machinery, such as wheelbarrows and clothes wringers, for example."

## Has Non-Existent Church

Vicar Assigned to Charge in Village Described as "Lost"

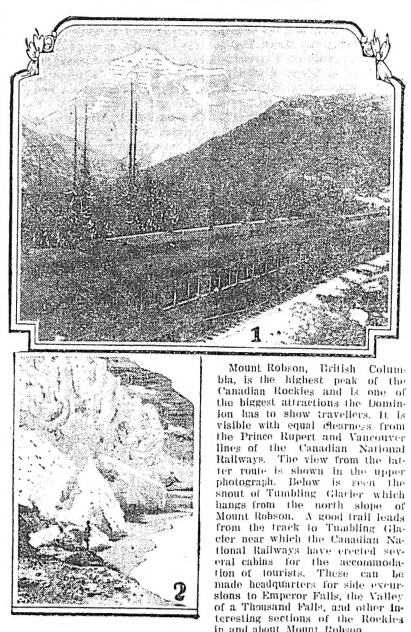

When the Rev. S. Morris, vicar of Wolver, takes charge of the benefice of Barton Hastings and Stretton Dacotville, England, shortly, he will be in charge of a church that no longer exists. The village of Stretton is known as the lost village. It existed in the time of Richard III, when the lord of the manor organized all his men to fight for the King at Bosworth Field. But Richard was defeated and Henry VII, the conqueror, razed the village to the ground in order to revenge himself. Nothing but fields and woodland remain. On the site of the manor house there is a rabbit warren, and the spot where the church stood is now a cattle graze.

## Disappointed Diamond Hunters

The London Daily Mail's Johannesburg, South Africa, correspondent sent a discouraging account of the new Grasfontein diamond field. He says that although there are some rich patches of ground, many of the diggers have drawn blanks. Hundreds of them already have left the diggings. Many farmers, who sold their farms and bought worthless claims are destitute.

A verbal marriage agreement is legal in Russia.

## DADDY OF THEM ALL

Mount Robson, British Columbia, is the highest peak of the Canadian Rockies and is one of the biggest attractions the Dominion has to show tourists. It is visible with equal clearness from the Prince Rupert and Vancouver lines of the Canadian National Railway. The view from the latter route is shown in the upper photograph. Below is even the scene of Timbuling Glacier which hangs from the north slope of Mount Robson. A good trail leads from the track to Timbuling Glacier near which the Canadian National Railways have erected several cabins for the accommodation of tourists. These can be made headquarters for side excursions to Emperor Falls, the Valley of a Thousand Falls, and other interesting sections of the Rockies in and about Mount Robson.

## Windmill as Power Source for Farmers

Tests to Determine Value Being Made at University of Saskatchewan

Electric lighting on every farmstead in Western Canada at an average monthly cost that will probably be less than the light bill of the city householder is now a prospect.

That prospect may become a reality is indicated by a promising experiment which is being conducted by the department of agricultural engineering at the University of Saskatchewan, Saskatoon.

Mounted on the top of the engineering building is a contraption that works on the principle of a windmill which is storing up electricity at a rate that should meet the requirements of the average home. It is known as the Perkins Aeroblastic and has been under test since last October.

Professor A. R. Greig and W. C. Wood are working on the problem. Power to run a generator is supplied by a two-bladed sail that looks very much like an aeroplane propeller. Connected directly with a set of gears from the spindle of the propeller is a small generator. Two wires lead from the generator down to the storage batteries which store up the energy until it is required. The propeller which, as stated before, is much like an aeroplane propeller, is ten feet long and is designed to run at a much higher speed than the ordinary wind mill wheel. The slightest variation in the wind shows to a noticeable increase or decrease in speed.

Judging from the speed at which the airspeed goes in an average breeze it has a revolving rate of about five times the ordinary windmill, or probably about 1,000 revolutions per minute.

The equipment is being carefully tested out by accurate measuring instruments. So delicate are the instruments that the slightest variation is recorded. These records are being made with the object of determining the average, maximum and minimum current produced over any given period.

Mr. Woods states that the main thing to determine was what the machine would do over a long period. A two or three month period was not sufficient. It would require a test, covering at least a year before any reliable information could be given out, he said.

The data which is collected will indicate more or less whether or not breezes can be expected every day in the year of sufficient strength to run the machine.

If the experiment works out successfully it will mean that farmers can purchase generating equipments at a comparatively low cost. When the machine is once installed the relatively cost of generating electricity will be the upkeep of the batteries, and wear and tear on the machinery.

The idea of a windmill arrangement to develop electric energy was not originated at Saskatchewan. The machine being used was built by the Perkins Aeroblastic Company and is merely being thoroughly tested out, the information thus gained to be used as a starting point to work on. Various improvements or changes may be made with the help of getting a machine which will meet all requirements in this connection.

## Does More Thorough Job

Vacuum Cleaner is Used to Groom Army Mules

The army mule is being cleaned by the vacuum cleaner, and likes it.

Use of vacuum cleaners in place of grooming by hand has been voted an unqualified success by commanders of horse and mule units of the army, according to a survey published in the current number of the Field Artillery Journal.

The machine does a more thorough job and completes the work in one-fifth of the time taken by hand, the survey showed. An average of a gallon of dirt was removed from every dozen animals, and each took on a finer gloss.

So effective were the vacuum cleaners in getting at the root of the dirt that army mules and horses in many posts were permitted to go through the winter months without their periodic clipping.

Nervousness disappeared after one application of the new machine and horses submitted quickly to its use. It was reported that mules seemed to experience no change of pleasure from the massage effects of the application. In fact, one report told of a notorious mule which the soldiers dreaded to groom. Its resistance vanished at the initial touch and now the animal visibly leans against the suction brush with much contentment.

Some people are criticized because they won't talk and some because they will.

## Literature Worth Studying

Canadian Writers Producing Fine Work Which People Should Appreciate

Canada is the only civilized country in the world which does not make the systematic study of its national literature compulsory in the schools. Dr. Lorne Pierce, of Toronto, told the Women's Canadian Club at Regina recently. His remarks came in the course of an interesting address on "Canadian Literature and the National Ideal," given at the Kitchener hotel. There was a general opinion that Canadian literature did not amount to anything, many of the voices expressing it coming from the universities, which were obsessed with old world ideas, he said. Yet while some Canadian literature was there, some abnormally poor, there was a small body of very fine work of which any country could be proud.

Dr. Pierce told of meeting a brilliant young woman Canadian university graduate recently, who turned up her nose when Canadian literature was mentioned. Asked what she knew about it, she had to admit that she knew nothing. Though she had taken honors in a French course, she could not name one French-Canadian writer. Yet ten French-Canadian had been crowned by the French Academy, Dr. Pierce said.

All the importance about Canadian literature recently arising was necessary, he speaker said, for national self-preservation. Canada was not a full-grown nation as yet, just an adolescent, and had many virtues and defects of adolescence, including imitativeness. We borrow our political institutions from Westminster, our fashions from Paris, jazz from New York. But borrowing in such a grand manner might result in losing the national soul. "No nation has ever yet made an important contribution to the world that ever felt itself to be a dependency," Dr. Pierce said. "It is the duty of Canadian clubs, of universities, of schools, to foster a sense of national self-consciousness in the Canadian people to stand on their hind feet and be themselves. If this can be done with in the British commonwealth of nations, well and good."

In order that Canadians might know what they were, Canadian history and literature should be studied. Dr. Pierce traced the development of Canadian literature in a ray manner, said was one of describing the making real the men and women mentioned. He paid particular tribute to Charles G. D. Roberts, Bliss Carman, Archibald Lampman, Duncan Campbell Scott, Pauline Johnson, and Marjorie Piethall, names which, he said, had rung around the world, and brought glory to Canada.

## Silent For Over a Century

Bell From Nelson's Flagship Will Be Seen in Liverpool

After a silence of 122 years, when it did its part to bring success to the British navy at the battle of Trafalgar, the bell of Lord Nelson's flagship Victory, rang once again in St. George's Hall, Liverpool, England. The bell was used to greet out the watches at an entertainment, given for the benefit of women's institutes under the auspices of the British Steamship interests. In past years the ships' bells of the famous sailing vessels Cutty Sark and H.M.S. Doubay have been used on shipboard but the hore's bell was used this night for the first time by permission of the Admiralty.

## Was Brainiest Mine Mule

Old Dick, known to the older diggers and company hands of the York town mines in Pennsylvania, as one of the "brainiest" mine mules in the anthracite region, died recently. For over twenty years Old Dick was the blue-ching, hard hat of the York town colliery and possessed intelligence that was surprising. It was said he could open a latch, tie or untie a knot, open and close the stable door, rouse his own harness and do many other feats that made him the prize of the colliery.

## That Your Husband a Prosperous Business?

The young bride was asked.

"Indeed he is," was the confident reply. "He must be taking lots of money, for he told me last night that he had to appoint a receiver to assist him."

## The Invention of Radio is Not So New

"No."

"No. The first loudspeaker was made from Adam's rib."

A combinatorial walking stick and go-cart has been invented by a British racing driver.

A Creamery's Greatest Assets  
Are Its Cream Patrons

Many features about the Creamery business are very im-  
portant. It is necessary to have good equipment and efficient  
employees, plus a good market for the finished product.

More important than all these, however, are our Cream  
Patrons. We have to depend on You Mr. Cream Shipper, for  
our cream. To great extent the quality of our products de-  
pends on the quality of the Cream You produce, and the care  
You take of it.

We want Cream, more Cream, and better Cream, if possible  
in return for which you can absolutely count on best grade,  
service and price when you ship your cream to—

## Here and There

An honor was conferred upon  
Captain James Turnbull, C.N.E.,  
R.N.R., commander of the Canadian  
Pacific steamship Montserrat recently,  
when he was appointed Aide-de-  
Camp to His Majesty King George V.

All golfing records were shattered  
recently when K. Tanaka, local Japanese  
golfer, playing on the (Canadian  
Pacific course "Langara," scored  
a hole in one twice in one round  
of the eighteen-hole links. The first  
was obtained at the fifth hole which  
is 115 yards, and the second at the  
sixteenth hole, which is 210 yards.

During the month of January of  
the present year automobile produc-  
tion in Canada has increased 98 per  
cent. over and above the production  
for the corresponding month of last  
year, being 15,375 cars, as compared  
with 7,752 for the previous year. Al-  
most half of the cars produced were  
for export, according to the Domini-  
on Bureau of Statistics.

In memory of the late Col. George  
H. Ham, of Montreal, dean of railway  
publicity men in North America, a  
beautiful memorial porch is being  
erected over the door of St. John's  
Church at Whitty by the members  
of the Women's Canadian Press Club.  
The late Col. Ham died in Montreal  
on April 16 last.

Nara, Japan.—Eleven passengers  
on the Round-the-World cruise of  
the Canadian Pacific ship Empress  
of Scotland squeezed through a  
rectangular hole in a pillar just  
behind the colossal image of Buddha  
in the Dairinji Temple, as reported  
thereby achieving, according to  
ancient tradition, the short road to  
Paradise.

The Board of Control at Toronto  
have formally accepted the offer  
made by Sir Leicester Harnsworth,  
English Baronet, of Mounier's por-  
trait of General John Graves Simcoe,  
after whom the County of Simcoe  
was named. General Simcoe set  
up his first government at York,  
now Toronto. The painting will be  
hung in the Toronto City Hall, al-  
ready adorned with a collection of  
historical paintings recognized as one  
of the finest of its kind in America.

FOR RENT.—That quarter  
section of land in the Coltholme  
district known as the Andy Simon  
quarter, on crop shares. Write  
your proposition. J. R. Miller,  
Didsbury, Alta.

Large Crowd Interested  
In Novelty Bouspiel

A large crowd of curlers and  
spectators are visiting the rink this  
week both to watch and partici-  
pate in the games being played off  
in the novelty bouspiel. The bous-  
spiel, in which sixteen rinks are  
competing, commenced on Monday  
evening. Two ladies are playing  
on each rink, and although the ice  
has been somewhat heavy yet some  
very close games have been wit-  
nessed.

At the time of going to press the  
following games have been played:

Monday			
Dawson	vs	Lost	
Harry Smith	vs	Todd	
Lee	vs	Elliott	
Chapman	vs	Milligan	
Tuesday			
Hurley	vs	Rennie	
J. S. Smith	vs	Deman	
Vanhook	vs	Jacques	
Butts	vs	Morrison	
Wednesday			
Harry Smith	vs	Dawson	
Chapman	vs	Vanhook	
Lee	vs	Hurley	
Butts	vs	S. S. Smith	

The semi-finals will be played off  
to-night when Harry Smith will  
meet Chapman, while Lee will play  
Butts.

## Three Weeks to Easter

The Lenten Season is upon us  
(of lengthening days, of the  
Passion of Our Lord) days when  
earnest Christians remind them-  
selves of their suffering Saviour  
and seek to do the call of the  
world and the flesh.

The Pastor of the Chinook United  
Church is having a series of Cot-  
tage Prayer Meetings and calls you  
to an evening of prayer, song and  
inspiration on Thursday, March  
31, at the home of Mr. Rideout.  
All welcome. We need you. You  
need us. We all need God.

## Wheat Pool Notes

Out of a total of thirty-six  
members of the Alberta Legisla-  
ture, who are farmers by occupa-  
tion, thirty-two are members of  
the Alberta Wheat Pool.

The making of the Interim pay-  
ment of 15 cents a bushel by the  
Alberta Wheat Pool requires the  
issuing of approximately 28,000  
cheques and advices. The late-  
cheques (for wheat received after  
the cut-off) will be out by the end  
of the month. The total distri-  
bution of money in the making of  
this Interim Payment is about six  
million dollars.

The Wheat Pool is warning  
members against purchasing for  
seed any of the so-called "mummy"  
wheat which has been found in  
tombs of ancient Egyptians,  
buried four thousand years ago.  
As a matter of fact wheat loses its  
germinative power after compara-  
tively few years. This "mummy"  
wheat is really an inferior grade  
of Durum.

With the anticipated leasing of  
Government Terminal Elevator  
No. 2 at Vancouver the Alberta  
Wheat Pool will have close to  
three million bushels of terminal  
elevator facilities on the Pacific  
coast to handle the 1927 crop of  
wheat. The Prince Rupert ter-  
minal has a capacity of 1,250,000  
bushels and No. 2 at Vancouver  
1,600,000 bushels.

Since the formation of the  
Wheat Pools in Western Canada,  
over half a billion dollars has been  
distributed to Pool members by  
the organization. From the 1926  
crop the Alberta Pool has distri-  
buted about forty-six million dol-  
lars already, with further pay-  
ments yet to be made.

## CLASSIFIED ADS.

FOR SALE.—Renfrew wheat,  
grown from Alberta University  
seed. Limited quantity for sale.

CHINOOK, ALTA.

Crocus Lodge, No. 115, G.R.A.  
A. F. & A. M.

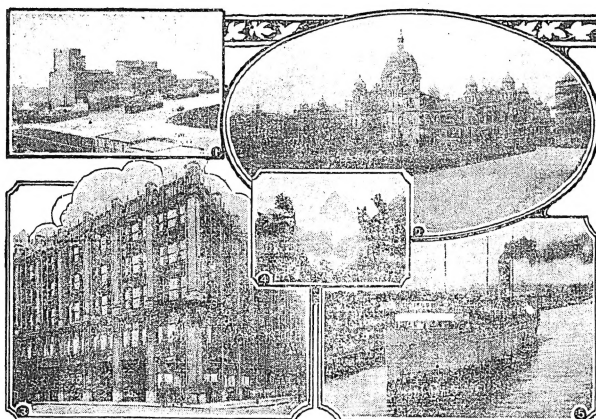

Meets at 8 p.m. the Wednesday or  
after the full moon.

Visiting brethren cordially wel-  
comed.

J. W. LAWRENCE,  
W. M.

R. V. LAWRENCE,  
Secretary

## Canada's Diamond Jubilee

1. Grain Elevators at Fort William. 2. Victoria in Western Port. Touched by Tour-Flour, Shows Parliament Buildings.  
3. Home of the "New Outlook" at Toronto. 4. An Extensive Tour through the Rockies is a High-Light of the trip.  
5. A Trip Down the Great Lakes is on the itinerary.

The Dominion-wide celebration of  
Canada's sixtieth year of Con-  
federation which is being planned  
for July of this year, will be the  
most remarkable and extensive ever  
held. The last links of a united  
Canada were placed in position forty  
years ago with the completion of  
the Canadian Pacific Railway. It is  
in furthering the bond between the  
peoples of the east and the west that  
this country will be engaged to a  
large extent during the celebration.

One of the most spectacular of  
plans for bringing the people of all  
parts of Canada together under

pleasant auspices and at the same  
time affording them an opportunity  
of gaining greater first hand knowl-  
edge of their country through per-  
sonal contact has been arranged by  
the New Outlook, official organ of  
the United Church of Canada.

On June 25th, a "million dollar"  
special train will leave Toronto with  
a limited number of passengers from  
the eastern provinces aboard, and  
follow the confederation route. The  
"Confederation Special," as it will  
be called, will be operated on the  
all-expense plan which will enable  
practically all who have the time to  
travel to do so. It will touch all the  
principal cities and resorts in the  
west and operate for twenty-one  
days. The hospitality of the west-  
erners is well known, so it is not  
surprising to learn that when the  
first announcement of the train was  
made, organizations and individuals  
in every city included in the itine-  
rary offered to entertain the party  
and see that it was given every facil-  
ity for sight seeing and enjoyment.  
The latest invitation is from the  
Prince of Wales's Ranch at High  
River to which the members of the  
special train party will motor from  
Calgary on July 1st.
